## Education

### DKTE'S Textile and Engineering Institute

Bachelor of Computer Science and Engineering, CGPA: 7.58

2020 – 2024

Ichalkaranji, Maharashtra

### H.D School Jr. College

HSC (Class XII), Aggregate: 60.00%

2020

Solapur, Maharashtra

## Projects

### Leave Management | *Html, Css, JavaScript, Php, SQL, Bootstrap*

June 2023

- Recording, managing, and tracking staff's time-off requests.
- To handle staff's leave request impartially while ensuring the staff's absence from work doesn't adversely impact the timetable of classes.
- Handle faculty leaves from college. Decrement the leave if the leave approved by the host is granted.

### Appointment Booking | *Html, Css, Php, SQL, JavaScript*

jan 2023

- smart appointment booking system that provides patients or any user with an easy way of booking a doctor's appointment online.
- If you book the appointment and there is no appointment booked already, then this system sends the message that the booking is successful, otherwise it gives them an appointment to book via email.

### Farmbook | *Html, Css, Php, SQL, javascript, Bootstrap*

June 2023

- Designed a sample system to suggest information about diseases and give solutions to them.
- Search for the picture that matches your plant disease, then click on details to get more information and a solution.

### E-Commerce | *HTML, CSS, JavaScript, Spring Boot, H2-Database, Bootstrap*

Oct 2023

- I created an engaging e-commerce web-based platform with a wide range of features, including seamless product buying, animated product browsing, logging in with Google, and user friendly interactions.
- There are various product categories available and two interfaces: admin and users, where admin adds new products and users buy their products.

## Experience/Internship

### Web Development | *Suvidha Foundation*

Dec 2022 – jan 2023

- Developed a responsive web application for appointment booking. Collaborated with a team to design and implement the project's front-end, ensuring a visually appealing and responsive user experience.
- Utilized HTML, CSS, and JavaScript to create an interactive and user-friendly interface. Implemented a MySQL database to store and manage appointment data.
- Proficiency in front-end technologies, including HTML, CSS, and JavaScript. Experience with database management using MySQL.

## Technical Skills

**Languages:** C, C++, Java, HTML, CSS, JavaScript, SQL, PHP, Tailwind CSS, bootstrap

**Developer Tools:** VS Code, Eclipse, IntelliJ IDEA

**Technologies/Frameworks:** Spring Boot, Linux, GitHub, MYSQL, Oracle, PostgreSQL

## Academic and Extracurricular Achievements

- \* Led the "Leave Management System" project.
- \* Managed college level event 'Tech Symposium'.
- \* Volunteer for a social function at the collegiate level.
- \* (training by RPG foundation).
